

SATHWIK VARMA MUDDULURI

2016260360 | mudduluri.sathwik@gmail.com | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer with senior-level expertise delivering scalable web applications. Led migration of legacy systems to cloud-native architecture, cutting deployment time by 30% and boosting performance. Built end-to-end employee management platform using Java Spring Boot, React, and AWS, increasing user productivity by 20%. Aiming to leverage full-stack and cloud skills to drive innovative solutions.

TECHNICAL SKILLS

- **Languages:** Java, Python, JavaScript, SQL, PL/SQL, C, TypeScript
- **Frontend:** React.js, Next.js, Material UI, Flask
- **Backend:** Node.js, Java (JUnit), Apache Spark, Hadoop
- **Databases:** OracleDB, MongoDB, Neo4j
- **Cloud & DevOps:** AWS (EC2, Spark clusters), Docker, Git, GitHub, Kubernetes
- **Testing & QA:** Playwright, JUnit, EvoSuite
- **ML & Compute:** TensorFlow, CUDA, cuDNN, PyTorch
- **Tools:** VS Code, Eclipse, Jupyter, Anaconda, Assistive technologies
- **Operating Systems:** Linux/Unix, Windows
- **AI:** LLMs, AI-Assisted Coding, Prompt Engineering, Claude Code

PROFESSIONAL EXPERIENCE

Digitronix AI INC

Aug 2026 - Present

Java Developer

- Architect and develop robust applications using Java, Spring Boot, microservices, and React.js/Angular on AWS, delivering scalable solutions that handle increased user traffic and improve system reliability
- Support CI/CD pipelines, containerization, and cloud deployments using tools such as Docker, Kubernetes, Jenkins, and AWS.
- Ensure code quality through unit testing, integration testing, code reviews, and adherence to software development standards

Exito Tech Inc.

Aug 2025 - Jun 2026

Full Stack Developer.

- Developed and maintained client-facing web applications using React, Spring Boot, and SQL databases, improving workflow automation and operational efficiency.
- Built RESTful APIs and backend services for employee management, onboarding, and reporting systems using Java Spring Boot and Node.js, enabling faster employee onboarding and streamlined reporting
- Assisted in migrating legacy applications to modern full-stack architectures with React, REST APIs, and cloud-based deployment environments, resulting in reduced maintenance costs and improved system scalability
- Collaborated in Agile/Scrum teams to implement client enhancements, troubleshoot production issues, and optimize application performance, which lowered incident resolution time and increased overall system reliability

HOCS Pvt Ltd

Jan 2023 - Jun 2023

Web Development Intern

Hyderabad

- Owned day-to-day maintenance and uptime of the company website using AWS EC2 and GitHub, resolved support tickets from internal and external users, and kept the site reliably available
- Identified and implemented performance, UX, and content updates with Flask and Next.js, which improved page load speed and enhanced the overall user experience

Cloud Technologies

Nov 2021 - Dec 2021

ML Engineer Intern

Hyderabad

Completed an intensive onboarding in Python-based ML workflows, gaining hands-on experience with data preprocessing, model training, and evaluation.

EDUCATION

New Jersey Institute of Technology

2025

Master of Science, Computer Science

Newark, NJ

Gokaraju Rangaraju Institute of Engineering and Technology

2022

Bachelor of Technology, Computer Science and Engineering

Hyderabad, India

PROJECT EXPERIENCE

Wine Quality Predictor

- Designed and deployed a regression-based ML model to predict wine quality.
- Built a distributed Spark cluster across 5 AWS EC2 instances to parallelize data processing.
- Containerized the application using Docker and deployed scalable compute pipelines.
- Implemented distributed dataset processing to improve training efficiency and performance.

Zoo Database Management System

- Built a full-stack CRUD application to manage zoo animal and employee data.
- Designed relational schema in OracleDB with optimized query structures.
- Developed frontend interface using Flask with secure database connectivity.
- Implemented role-based data handling and validation mechanisms.
